

## Document Camera and Visual Presenter

High-quality  
digitalization

The document camera or visual presenter SmartMedia is a new and powerful technological tool that allows, in real time, the digitalization of the camera framed objects

The captured images can be saved in image files or popular video formats and can be stored, depending on the model, directly to your computer or SD Card.

The powerful software supplied allows you to make notes, highlight, delete, or make special focus, increase the brightness of the image, save the document etc ...

The presence of a flexible swivel arm and a backlit base allowing the display of particular objects that are not easily accessible and viewable.

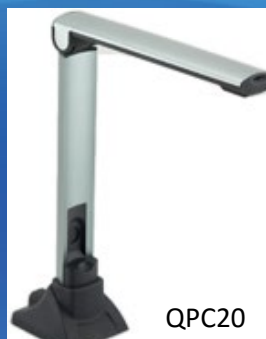

Remote controllable thanks to the supplied wireless remote control.

Ideal for presentations and for teachers who wish to enrich their lessons and make them more interactive, attractive and interesting.

It is used in the classroom, in relation to the digital whiteboard, allows the simultaneous visualization of all the students of the documents and the scanned objects.

## Technical features

Model	SP10	QPC20	QPC30 M	QPC60
Zoom	Yes	Yes	7x optical, 10x digital	3x optical, 8x mecanic, 2x smart, 4x digital
Image sensor	3.0 M CMOS	5.0 M CMOS	1/3" Pro CMOS	5.0 M CMOS
Motorized Camera	No	No	No	No
Output focus	1024X768	1024x768	WXGA, SXGA, XGA, VGA 720p	XGA/ SXGA/ 720p
