

SmartMedia Class Software

Online learning management platform for schools and training centers

CONTENT MANAGEMENT

Create, manage and organize your classes and online courses, share them with your students reachable everywhere.

ORGANIZATION

Manage forums, blogs, chat, manage events and organize exercises and quizzes with evaluation.

ACCESSIBILITY

Allows to connect the lesson even at a distance.

Compatible with iOS, Android, Windows, Linux, Mac OS and Chromebook.

SMARTMEDIA CLASS is a software that allows the teacher to share from any PC and manage in cloud multimedia content of the lessons carried out or freshly prepared, filing them in specific folders accessible by other users.

Allows to send to multiple applications devices, even open-ended questions, homework and structured tests.

Keeps track of lessons, assignments, audits and other educational activities with classes.

Includes a community where you can share lessons and other content, along with a homepage where each teacher can send messages and make them visible to students in a particular class.

Connects tablets and other devices to the interactive whiteboard
