75" 4K

An excellent experience

SMARTMEDIA CAP SERIES

CAP Series touch screen monitor is a modern system that allows a perfect view, for interactive presentations that's easy to use.

The monitor comes in 4K to ensure long life and high resolution.

Modern design, rounded corners, USB input ports.

Integrated PC to surf the web and use any app.

App for management of interactive whiteboard.

Wall-mount for Monitors included.

APPLICATIONS

CAP multi-touch monitor is a powerful and versatile tool that can revolutionize display, interaction and transmission of knowledge.

This solution creates a convergence of the many tools currently used in the classroom and boardroom (IWB, video projector, DVD player, sound enhancement), in one complete and functional device.

It is also the optimal solution for Digital Signage and Video Conferencing.

MAIN FEATURES

- PCAP (Projected Capacitive) technology for fast, accurate and reliable touch
- Integrated PC
- Protective glass with 85% transparency
- Furnished with SmartTouch software for media content management, SmartMedia IWB complete with video conferencing plug-in and SmartMedia Pro software for device management in the classroom, SmartSignage for Digital Signage applications.
- Function "Note on-screen" to write, delete, write notes and to take screenshot.

Included SmartTouch Software

SmartTouch is the software that lets you manage multimedia content and presentation files more effectively and in a more visually engaging way on any touch-based device. Easy to use, SmartTouch allows you to control and interact with content naturally thanks to hand gesture recognition. SmartTouch has been designed to give you an experience much like your smartphone or tablet. Designed for use with touch screen monitors and with interactive kiosks and tables.

Great at info points, trade shows, museums, retail locations, shopping malls, television news studios, meeting rooms, airports, hotels, universities, schools, training centers, libraries, etc.

PHOTO, VIDEO AND AUDIO VIEWER

Allows you to visualize and manipulate photographs, videos and audio files, annotate directly over the screen, and capture and email your annotations.

JIGSAW PUZZLE

This app simulates a classic jigsaw puzzle to entertain in a fun way! Users can turn any image they desire into a puzzle.

PDF AND MICROSOFT WORD, EXCEL AND POWER POINT FILE VIEWER

Lets you visualize the selected file and zoom in or out on all or part of the document, annotate directly over the screen, and capture and email your annotations.

BROWSER

The integrated web browser will let you navigate the Internet and create white and black lists to limit access only to specified sites, annotate directly over the screen, and capture and email your annotations.

QUIZ BUILDER

Create and manage custom quizzes for educational or entertainment purposes.

FORM:

Lets you visualize the selected file and zoom in or out on all or part of the document, annotate directly over the screen, and capture and email your annotations.

Compatibility

Minimum requirements: 7-inch Tablet with Windows 8.1 or Windows 10 or Desktop PC with Windows 7, 8, 8.1 or 10

Included Software

SmartMedia Pro (for 5 users)

With SmartMedia Pro, our multimedia-linguistics educational network software, you can easily transfer and share images or files with your students, communicate with them through voice and text messages, explain with the help of images and sounds, broadcast a movie via network, show the class an exercise created by a student, check the student's screens, block student's devices, manage instant quiz/survey and more.

SmartMedia Pro is simple to learn, simple to use and doesn't need a technical person to operate or maintain.

Compatibility:

SmartMedia IWB

Main Features:
